

Rip-saw blades with wiper slots

THE SWEDEX SAW BLADE WITH WIPER SLOTS

A saw blade for demanding work. The wiper slot reduces the risk of the blade binding and burning. The protective tooth throws out loose cuttings and keeps the cutting groove clean. Both green and dry wood can be sawn. We also manufacture blades having three wiper slots, the wiper slots being placed further in, teflon coated, with extra small cutting width etc. Call us with your requirements.

22AA46SR

With guard teeth and wiper slots.
Diameter 160 to 200 mm.

22AA46R

With large gullets and wiper slots.
Diameter 225 to 400 mm.

22AA46SRT2

With guard teeth and wiper slots.
Diameter 160 to 200 mm.

22AA46RT2

With large gullets and wiper slots.
Diameter 225 to 400 mm.

22AA46SRT3

With guard teeth and wiper slots.

22AA39R

With large gullets and wiper slots

22AA39SR

With guard teeth and wiper slots.
